♦I did not have the option to say no, ♦ India added, noting ♦collateral♦ often meant handing over damaging information about one♦s family. ♦Saying no meant hurting my family or hurting my friends. And I wasn♦t gonna do that. ♦

India also recalled the initiation ceremony into DOS where she was unknowingly branded with Raniere♦s initials.

♦We were told that it was a symbol of the elements and that this was gonna be a bonding experience, ♦ she said explained. ♦And we were sleep-deprived. We were starved. We were coerced. ♦

India also spoke with People ahead of the upcoming STARZ documentary Seduced: Inside the NXIVM Cult and gave more disturbing details about that night in January 2016.

♦I had two women holding my hands and my feet so I wouldn't convulse, ♦ India told the magazine. ♦I remember the smell ♦ of flesh. ♦

India♦s famous mother helped blow the lid off NXIVM by going public in 2017 as she fought to ♦save♦ her daughter.

♦I was scared to death but it didn't matter if I was scared, ♦ Catherine told the magazine. ♦I knew what I was up against. I knew nobody had dared to do what I was doing because this cult had financially ruined them. ♦

India added, ♦I can't describe in words how grateful I am for that. Because the truth is, I didn't see a future for myself when I was there. I was really kind of committed to being there forever, indefinitely. ♦
