_____

The Charging time of Comparison of Original and Third Party iPhone 5 Cables,iphone 5s cases designer

Besides the transmission speed, another topic that everyone most cares about is the charging time of the two data cables. Next we respectively inserted two data cables in two depletion of electricity (can't open) iPhone 5 and see which one will be the first one to charge full of mobile phone.

As is known to all. Apple does not increase iPhone 5 battery capacity,iphone 5 Pendant wholesale, but as a result of choose more save electricity screen material, so standby time is still increased 15% than iPhone 4S. Will the charging time extent than before?

iPhone 5 extending the standby time does not make charging time extended,designer iphone 5s cases. Our two iPhone 5 which run out of power only took more than an hour to fill the electricity,ipad cases designer. It is worth to say that the copy data cable still plays very well in this link. The charging time reached the zero error with quality goods data cable and both are for 1 hour and 41 minutes,wholesale cellz.

Goodscool - one of the best supplier of ,iphone cases 5s, , and so on.
