China Perfluoroalkoxy Teflon-PFA news

Posted by haoyunlaiol9 - 2014/04/26 17:05

_____

PFA of Corrosion-resistant piping is very similar in composition to the fluoropolymers PTFE and FEP (fluorinated ethylene-propylene). PFA and FEP both share PTFE's useful properties of low coefficient of friction and non-reactivity, but are more easily formable. FEP is softer than PTFE and melts at 260 °C; it is highly transparent and resistant to sunlight.
